[www.koltonnay.com](http://www.koltonnay.com)

People-oriented technologist who brings open and clear communication to each project. Passionate about efficiency and inclusivity both in code and in the workplace. Looking to join a collaborative team as a software developer where I can contribute unique solutions as well as foster my curiosity through experimentation.

## Technical Skills

Java | HTML | CSS | JavaScript | Vue.js | Spring Boot | Spring MVC | Responsive Design | Tomcat | Table Design | Git | Visual Studio  
Eclipse | PostgreSQL | Unit Testing (JUnit) | Agile | Thymeleaf | Angular | Jira

---

## Technical Experience

Tech Elevator Alumni Portal -- (See it here: <http://alumni.techelevator.com/>)

- Contributed to the development and deployment of the TE Alumni Portal website using Java, Spring Boot, Thymeleaf, and a PostgreSQL database. Developed the 'Pathway Contacts' page which displays contacts based on user location. Designed and built an analytics tab for admins to see usage statistics, and contributed regularly to improvements and bug fixes.

FoxChat (Chatbot)

- Co-developed a tech education chatbot with functionality to dynamically respond to user input related to curriculum help and career advice. Built a PostgreSQL database to store triggered responses, a front-end website in Vue.js connected to a Java server through RESTful Web Services, and an authenticated admin page dedicated to displaying usage statistics in a graphical format and allowing limited database manipulation.

---
